Saludos, Dios la colme de mucha salud y bendiciones. Llevo en mi trabajo sobre 30 años trabajando de sol a Sol. Le di los mejores años de mi vida al gobierno de Puerto Rico. Cuando comencé rápido me gane mi permanencia. En aquel momento firme bajo unas condiciones especificas, entre ellas poder aspirar a un retiro de un 75% de mi sueldo. Hoy 30 años después es inhumano que que a estas alturas de mi vida yo me retire con un sueldo que no me dará solo para pagar Luz y agua. Si tuviera 20 Años de edad no habría problemas, por que tendría una toda una vida para prepararme para mi retiro. Por favor autorice la ley 80 que por lo menos nos podríamos retirar con algo de dinero para ayudarnos a vivir

Subject: Leyes 80 y 81 retiro justo y digno.

CAUTION - EXTERNAL:

Greetings Honorable judge, my name is Jose Delgado, I entered the public service almost 26 years ago. I have a wife and two small children. Since I entered the public service and I have had a reasonable salary, since part of the same salary has been taken from me to pay the retirement benefit but I have been satisfied because I knew that I knew that I was paying a sure benefit. I had my children at an adult age, and it is hard to meet their needs in a country where things are more expensive every day. I count on that retirement money that with the 80 law will be about \$ 1,000 dollars a month that will help me compensate while I look for another job.

I do not have catastrophic illnesses but I suffer from my back and my knees are hurt. But with that retirement compensation that I paid for almost 26 years, it will help me to raise my children. All my working life I had counted on that. The fact that that right is taken away from me would destroy the life of my family as it leaves us destitute. Having to wait 15 more years to get 28% of the 2013 salary is something that will leave my family in total poverty. Please consider our situation. We

deserve it. Thank you for your management and may God enlighten your decision.

Saludos Honorable juez, mi nombre es Jose delgado, entré al servicio publico hace casi 26 años . tengo esposa y dos niños pequeños> Desde que entré al servicio publico y he tenido un sueldo modico, ya que que parte del mismo sueldo me lo han sacado para pagar el beneficio e retiro pero he estado conforme por que sabia que sabia que estaba pagando a un beneficio seguro. Tuve mis hijos a una edad adulta, y es duro cubrir sus necesidades en un pais que las cosas cada dia estan mas caras. Cuento con ese dinero de retiro que con la ley 80 sera de unos \$1,000 dolares mensuales que me ayudara a compensar mientras busco otro trabajo.

No tengo enfermmedades catastroficas pero padezco de la espalada y tengo las rodillas lastimadas. Pero con esa compensacion de retiro que pagué por casi 26 años me ayudara a sacar mis hijos adelante. Toda mi vida laboral había contado con eso. El hecho que me quiten ese derecho destruiria la vida de mi familia ya que nos deja en la indigencia. Tener que esperar 15 años mas para obtener un 28% del sueldo del año 2013 es algo que dejará a mi familia en la total pobreza. Por favor conside nuestra situacion. Nos lo merecemos. Gracias por su gestion y que Dios ilumine su desición

CAUTION - EXTERNAL:

My name is Mayra Rivera from Puerto Rico. While you have an \$675,000 anual income, my retirement pension will be \$19,200 anual in the actual law.

We need that you honor the contract we made with the goverment of Puerto Rico: #447 Law. Thats justice. In the alternative, we need the #80 law from august 2020. I am almost 35 years public service woman and I need the retire. Please help us.

Español

Me llamo Mayra Rivera y soy de Puerto Rico. Mientras usted devenga \$675,000 anuales de ingresos, yo devengaré \$19,200 anuales aprox, cuando me retire bajo el estatuto actual. ¿Quien vive con eso? No tengo la culpa de las malas inversiones de los bonistas de mi país utilizando mi dinero de retiro bajo la Ley 447. No tengo la culpa de eso y rechazo las imposiciones sobre nosotros por parte de ustedes, a través de la Ley Promesa. La Junta de Supervisión Fiscal ha sido un atropello a nuestras ya deterioradas finanzas.

Necesitamos que honre el contrato que como empleada pública realicé con el gobierno de Puerto Rico bajo la Ley 447 de los sistemas de retiro. Eso sería impartir justicia. En la alternativa necesitamos que den cumplimiento al estatuto aprobado bajo La Ley 80 de agosto de 2020. Haga algo bueno. En mi caso, cumplo 35 años de servidora pública en febrero 2022. Estoy enferma. Me tengo que retirar al 31 de diciembre de 2021, con una pensión que no dará ni para pagar mis medicamentos. Ayude por favor 🙏

Dear Honorable Laura Tyler Swain!

I am writing to you in regard to the oversight board petition to nullify the following Laws 80, 81, and 82 early retirement for public employees . I am a public employee that has been working for the past 34 years, for the Mental Health administration! I moved to Puerto Rico very young, and have encounter first hand the suffering of many people living under poverty, the cost of living continue rise, many workers have to work two jobs to make ends meet, especially single mothers, who's only income is one paycheck! The retirement system has gone through three reforms all affecting the public employee. The public employee have suffered so much, first there pension has been cut down, by law 3 of 2013, which means what they expected to get when they retire, is much less, we are talking about , employee that when they reach retirement age, what they will receive will not be enough to cover their expenses, since when you reach a certain age, most will have health problems that their medical plan will not be enough to cover medical cost, this will be another burden for the employee! Second, benefits have been cut, no medical plan benefit, and retirement age raised! Since 2013, the employee pays their own pension, the government does not contribute to the pension! The cost of living will continue to rise, but the pension will be the same, without any hope for cost of living raise to their pension! We have left our lives to serve the people of Puerto Rico and consider that justice should to be done to the public employee! Our pension is not a handout, we have contributed to our pension. I hope and pray that this communication reach you, and you consider not nullifying law 80, 81 and 82! Respectfully we request your support! Have a great day!

CAUTION - EXTERNAL:

Respetuosamente suplico se atienda el retiro (Ley 80, 81, 82) de sobre más de 40,000 los empleados que quedamos de la Ley Número. 447 y Ley Número. 1. Somos empleados con más de 30 años de servicio, donde arbitrariamente se nos redujo en el año 2013, el beneficio de pensión como aportación a la crisis económica que atraviesa Puerto Rico. Seguir apretando al empleado público no es opción. Se sabe de bonistas que arriesgaron capital a precios ridículos y le van a pagar 6 veces su inversión. Ellos invirtieron conociendo el riesgo, posiblemente nosotros engañados. Pero no es justo que aquel bonista que invirtió o arriesgó 15 centavos reciba 90 centavos de ganancia y el empleado público que aportó posiblemente los mismos 15 centavos, reciba 5 centavos de pérdida. Eso es llevarnos a la miseria. Examine detenidamente las leyes mencionadas. El pago de salarios es un gasto del gobierno y de toda empresa privada. Con la aprobación de estas leyes se economizan el 50% de ese gasto. Más que eso se a llevado la JSF en sueldos y gastos legales y que otros más, y seguimos de pie!

Gracias por la atención,

Subject: Law 80

CAUTION - EXTERNAL:

Greetings Hon. Judge Swain:

I address you with great respect, I am a PR citizen outraged by the government of my country.

I am 53 years old and since I was 16 years old I have worked in various places to pay for my expenses. Since 1984 I entered the government of PR and since then I have held various positions. I am already exhausted, just 7 years ago I reached a more or less decent salary in relation to the salary of many.

I have a master's degree in Administration and I don't make \$ 4,000 a month in salary. The government withholds compulsory 320.00 a month from my salary. It is very sad to know that if Law 80 is not approved, which would grant me 50% of my salary, I have to wait until I am 65 years of age to be able to retire and receive 800 dollars or less in pension after 38 years of work because the corruption of the my country's government has left us impoverished.

I beg your justice for the working class of PR that has been abused by the great interests and governments that have failed the people who gave them their trust. Working in conditions that are often undesirable, where politics has been the queen of jobs, salaries and merit that counts, where a people is deceived and in our adulthood we are robbed in this way in a country of " law and order "is abusive.

I respectfully request that you stand in our place and understand our request to be able to receive at least 50% of our salary without further conditions and that it is not the prerogative of the employer to abide by the law. Anyway it is common knowledge that a pension of 1,500 or 1,800 is not enough to live on.

But accepting 50% now is better than 26% 13-15 years from now. We are without option before the abuse and breach of contract that we signed when we were employees.

Subject: Law 80 of retirement from the Government of Puerto Rico

CAUTION - EXTERNAL:

Honorable Judge Swain,

I am currently an employee of the Government of Puerto Rico for 36 years. I belong to the law 447 of retirement. I am a participant in the Puerto Rico incentive retirement law 80 of 2020. I hereby wish to appeal to your good judgment and heart to approve the retirement law 80 since it is a savings for our government. The oldest employees are the ones with the highest salary and by passing this law, the government saves half of the salary of each one of us. This law 80 does mean savings for the government. They would not have to pay any more Christmas bonus, overtime, among others. Those of us from law 447 are few. Many of us have chronic health conditions and we want to continue treating our health conditions and have a better quality of life in the years that God allows us to live. In my case, I suffer from chronic asthma and rheumatoid arthritis. Both are chronic diseases. Getting up to work is not easy. I have frequent therapies to help control my asthma and I also treat myself for arthritis. I appeal to your good judgment and heart to allow me and my colleagues in the government that have dedicated so many years to our work, at least to be able to have quality of life in the years that remain. That allows these retirement laws, Law 80 and 81, to be implemented for the employees that qualify and justice be done to us for the years of service we have provided. Our lives are going by Honorable Judge Swain. They have already made many changes to our retirement. The employees of law 447 to which I belong are supposed to leave with 75% of our retirement and in 2013 they lowered it with another law to 48% in my case, since it depended on the years worked at that time. Then they opened other retirement laws through which I could not leave because of my children who were still studying. But now I can go and I want to do it for my health. We have acquired rights. Our regular retirement is at 61 years of age, in my case with 48% of my salary for life, which is fair for being the longest-serving employees in the government and we want us to honor the permanence of the law that protects us. But above all we sincerely hope you pass Law 80 and pass it on. That in the next 10 years they do not make more laws like this, but please let it be approved. There are many employees with chronic health conditions Honorable Judge. Please allow us to retire under law 80. Please approve the law 80. Thank you honorable Judge Swain, God guide you in your decision and bless you. Forgive my English, I do my best.

Subject: Derecho a retiro vitalicio empleados gobierno de Puerto Rico

CAUTION - EXTERNAL:

Saludos cordiales honorable jueza Swain:

Me dirijo a usted respetuosamente para solicitarle lo siguiente:

1. Que en la evaluación que esté realizando para aprobar el PAD que le presentó la JCF por la quiebra de PR, tome en consideración que los empleados públicos que aún continuamos trabajando, estamos condenados a vivir en la indigencia de no contar con un retiro vitalicio a nuestra plena edad de jubilación a los 65 años.
2. Que ya hay empleados que ya cumplieron su tiempo trabajando y la junta no los deja retirar a través de la ley 80. Tienen más de 30 años de servicio, con enfermedades crónicas. Los están llevando a vivir enfermos emocionalmente también afectando a su familia inmediata. Perderán sus casas, algo material si pero que afecta la economía grandemente. Y esto no nos ayudaría a salir de esta quiebra como queremos.
3. El pueblo tiene que pagar viviendo en la miseria por la decisión que tomaron los inversionistas aún sabiendo que las fuentes de repago para esos préstamos otorgados no estaban bien. Conocían de los problemas, ellos también deben asumir su responsabilidad.
4. Los servicios que va a recibir el pueblo serán bien limitados. Estoy consciente de que hay pagar. Pero debe ser un acuerdo justo. Que todos nos sacrifiquemos por un tiempo establecido. Digo todos no unos más que otros. El gobierno hacer sus ajustes, los retirados y los que aún estamos trabajando ceder algo y los inversionistas ceder un 55 o 60 % o más, si como quiera van a tener ganancias.
5. En todos estos años se le ha pagado muchísimo a la junta a ellos habría que ajustarle su salarios y gastos también.

Que DIOS la ilumine para que tome una decisión justa y sabia para todos los habitantes del pueblo de PUERTO RICO.

Ya son muchos Años de servicio que ha generado cansancio y otras situaciones de salud.

Le pido a Dios que le dé la sabiduría de tomar la mejor decisión en cuanto al futuro de esta ley sabiendo que en sus manos esta.

Un Retiro que por muchos años hemos trabajado para poder disfrutar con nuestras familias cuando lleque ese momento, y esa oportunidad se nos presenta hoy con ley 80. Honorable Judge Swain, my respects for the work you do. I want to advocate for the retirement pension of all Puerto Ricans but especially for that of my husband who is a municipal policeman, he has risked his life for 27 years for a meager salary of \$ 1,800 per month, on top of that he has to suffer begging for his pension and as well as there are many more in this situation. This payment comes from his contribution and has nothing to do with the government fund. That the government has vanished it, that is another thing. Anyone who violated this fund should be penalized and not re victimize those affected. The government has to answer for the retirement of all public employees. It is a violation of their labor rights that they fail to comply with what they once signed. We appeal to their sensitivity, many employees have been at work for 33 years and more, others have died waiting to retire and many others work even with health problems. It is unfair for these workers that they have to beg for something for which they contribute.

Dear Honorable Laura Tyler Swain!

I am writing to you in regard to the oversight board petition to nullify the following Laws 80, 81, and 82 early retirement for public employees . I am a public employee that has been working for the past 34 years, for the Puerto Rico Acueduct & Sewer authority! I was born in and saw the suffering of many people living under poverty, the cost of living continue rise, many workers have to work two jobs to make ends meet, especially single mothers, who's only income is one paycheck! The retirement system has gone through three reforms all affecting the public employee. The public employee have suffered so much, first there pension has been cut down, by law 3 of 2013, which means what they expected to get when they retire, is much less, we are talking about , employee that when they reach retirement age, what they will receive will not be enough to cover their expenses, since when you reach a certain age, most will have health problems that their medical plan will not be enough to cover medical cost, this will be another burden for the employee! Second, benefits have been cut, no medical plan benefit, and retirement age raised! Since 2013, the employee pays their own pension, the government does not contribute to the pension! The cost of living will continue to rise, but the pension will be the same, without any hope for cost of living raise to their pension! We have left our lives to serve the people of Puerto Rico and consider that justice should to be done to the public employee! Our pension is not a handout, we have contributed to our pension. I hope and pray that this communication reach you, and you consider not nullifying law 80, 81 and 82! Respectfully we request your support! Have a great day!

I respectfully request your approval of Puerto Rico's law 80 of August 3, 2020. On one hand, nonessential workers will not have to be replaced and on the other hand, essential workers that have to be replaced will be replaced with new employees that will start with a much lower salary. In my case my current salary is a tad over \$2,800.00 but my beginning salary was \$1,500.00 and it took me more than 20 years to get to my current salary. Without this pre- retirement law I would receive less than \$800.00 at age 61. I believe this law would be doing us some justice without being a burden to the government.

Good afternoon Judge

I am writing to tell you to please advocate for us public employees. We have been working for many years now and we are extremely tired and ill with disabling conditions. I am physically and mentally bad. I have already had to be on rest by my Psychiatrist on several occasions and on one occasion I was partially hospitalized at the Hospital Panamericano. I suffer from depression and panic attacks, in addition to multiple health conditions, such as: fibromyalgia, sleep apnea, 3 herniated cervical discs, degenerative cervical arthritis, etc. It is very painful for me to get up and drive to work in traffic congestion every day. I arrive with horrible pain in my hands, knees, legs, back and feet. It's like I've already worked all day. It is very difficult and painful. (I include annex of health conditions).

We deserve this withdrawal of Law 80, we already pay for it, state and federal, we pay the same withdrawal. It is fair that at this point after so many years and after having already taken away acquired benefits, we can retire with dignity and respect from the government and our employer.

I greatly appreciate your attention to this very important matter.

Sincerely,

Good morning

Honorable Judge Swain

I am part of the employees who demand justice for us from you. We are aware of and understand the seriousness of the PR economic issue. What we do not understand because the active employees of the central government are the only ones who do not have acquired rights. There are 4 withdrawal systems and 3 of them have acquired rights. His pension is 75%, medical plan among other benefits. It should be noted that these employees have a high floor, that means that their pension is high. These people have not had their pensions touched. The average salary for central government employees is \$ 1900.00, of which a 38% pension would correspond to approximately 38% and without a medical plan.

Law 80-2013 would improve our%, although it would never be compared with other retirement systems. We ask you to put yourself in our shoes. We see how there is money for useless things. At no time do we see that the public servant is a priority. We are the expendable employees (pawns). Those of us who enter without political support are why our salaries are so low.

We ask you to look at us, to order Law 80 and 81 to be implemented. What a limit on the government to touch our contributions to the retirement plan.

We do not want more, we want what is fair.

Thank you Honorable Judge and God bless you.

Iris M. Salas

Saludos Honorable Jueza Laura Taylor Swain. Muy respetuosamente le estoy solicitando la aprobación de la Ley 80-2020 del Retiro Digno. Soy empleado de la CFSE (Corporación del Fondo del Seguro de Estado) con 26 años de servicio cotizados. En estos momentos estoy padeciendo problemas de salud debido a un infarto cardíaco sufrido en 2017 y además padezco de diabetes. Necesitamos la aprobación de esta ley para que nos hagan justicia y poder tener nuestro merecido descanso con una pensión digna.

Agradeceré toda la cooperación y ayuda que nos pueda brindar aprobando la misma y poder terminar con la ansiedad que tenemos.

Good Morning Honorable Judge Laura Taylor Swain

My name is Reinaldo Collazo. I am a public employee and I am 60 years old. Like many public employees who are sick, we have had to live the most difficult moments in the Government. Law 80 is not a spending law. On the contrary, it represents a significant saving in payroll for the government of Puerto Rico. We have been waiting a long time for justice to be done. Law 80 represents for all of us a hope of a dignified retirement and we trust that you will do everything in your power to do us justice.

We will be very grateful for your help.

Sincerely,

Reinaldo Collazo Dávila

Good afternoon Judge

I am writing to tell you to please advocate for us public employees. We have been working for many years now and we are extremely tired and ill with disabling conditions. I am physically and mentally bad. I have already had to be on rest by my Psychiatrist on several occasions and on one occasion I was partially hospitalized at the Hospital Panamericano. I suffer from depression and panic attacks, in addition to multiple health conditions, such as: fibromyalgia, sleep apnea, 3 herniated cervical discs, degenerative cervical arthritis, etc. It is very painful for me to get up and drive to work in traffic congestion every day. I arrive with horrible pain in my hands, knees, legs, back and feet. It's like I've already worked all day. It is very difficult and painful. (I include annex of health conditions).

We deserve this withdrawal of Law 80, we already pay for it, state and federal, we pay the same withdrawal. It is fair that at this point after so many years and after having already taken away acquired benefits, we can retire with dignity and respect from the government and our employer.

I greatly appreciate your attention to this very important matter.

Sincerely,

Zaida Alvarez Flores

Honorable Swain

Hope your ok , happy holly days , my letter is concerning my pention with the government of Puerto Rico , i started to work since February 12 1981 , 40 years ago but only 32 of them was in the Municipality of Arecibo , in that time i sign with a future pention of 70% and we planed to retire in March 2014 but the Government changed the law in 2013 , just that by December 2013 i didn't cuallify because of my age still wasn't 55 years to cualify at that time ! The change of the law in 2013 brought to me that i haved to work 7 years more to have 61 and cualify to ask for retire with a 34 % of pention 36 % less than the real pention that was supposed to be 70% that was what i signed for.

Know we were tolded ghat with the Law 80 or pention was going to be fixed in some manner so that we could retire with a 50% ! But we have a delema with the over site board that doesent want to give us sush help in or retire plan and worse they want to give us a check and good buy , wen the send a letter to the government that says that if they make some changes to Lay 80 that most of us could retire , changes that were made and aprouved by senate and representatives with the amendment 171 , we don't know why they say that the government didn't answer ? What we know is that the board didn't answer when they asked for the boards opinion of the amendment # 171.

Im respectfully asking you to make justice for all of us retireer of Law 447 that haved to work more of 30 years to retire dignadly please fogive me my english righting i did my best hope you understand

CAUTION - EXTERNAL:

Honorable jueza Swain, con la esperanza que pueda leer este mensaje, me dirijo a usted como empleada pública activa y con el deseo de poder ostentar mi jubilación bajo la Ley 80 de 2020. Ley que me dio una esperanza para poder brindarle a mi hija de 2 años con diagnóstico Síndrome Down, una mejor calidad de vida, que ha necesitado, necesita y necesitará la asistencia de mamá para tener una calidad de vida que ella se merece.

Esta ley conlleva ahorros, aunque los números de la Junta de Supervision Fiscal indica lo contrario, los que nunca han presentado como llegaron a esa conclusión. Se estaría ahorrando un 50% del sueldo pagado actualmente. Sueldo que cuenta con aumentos salariales otorgados durante todos los años de servicio, por lo que en el caso de los puestos que se tengan que reponer se cubrirían con ese 50% restante, ya que el empleado de nuevo ingreso comienza con el sueldo básico de la posición, según estipulada. Por ende en el caso de las posiciones que se tengan que llenar por necesidad, aunque no reflejen un ahorro, no conllevaría un gasto adicional porque, como indique quedaría cubierto con el 50% de ahorros de ese sueldo.

La Junta nunca antes había rechazado completamente esta ley y mantuvo conversaciones con el Gobierno, hasta llegar a una opción de implementación el comenzar con los empleados que habían sido clasificados por las agencias como **no esenciales**. Lo que vivió a revivir mis esperanzas y planes de futuro.

Durante este mes, se aprobó una resolución para comenzar con este proceso ordenado y resulta que la Junta ahora quiere incluir esta ley, junto a las 81 y 82, como parte de las leyes que quedarían anuladas bajo el PAD. Esto sería injusto ya que anteriormente no tuvieron ninguna objeción, por eso las constantes comunicaciones entre ellos y el gobierno y sería inverosímil que adicional a oponerse a estas estén poniendo una restricción de 10 años.

Como empleada pública desde el 1994, firme un contrato con el gobierno bajo unos beneficios y que desde el 2013 fueron arbitraria y unilateralmente enmendados sin contemplación por el gobierno.

Con el pasar de los años, además de condiciones físicas se han sumado condiciones emocionales debido a la incertidumbre de lo que nos deparará nuestro futuro económico, para poder cumplir con nuestras necesidades básicas y todos los aumentos que han surgido y seguirán surgiendo.

Por lo que mientras evalúa todo lo que tiene en sus manos, muy respetuosamente le pido por mi y por los miles de compañeros y compañeras que están en esta situación o en muchos casos hasta peores, que analice y al tomar su decisión reconozca que nosotros los empleados no tenemos la culpa de las decisiones arbitrarias tomadas por el gobierno, las que se suponen que sean de beneficio para el pueblo, que no tenemos la culpa de que nos hayan sometido

a una Junta de Supervisión Fiscal que no nos toma en consideración como la fuerza laboral que movemos el gobierno y por ende la economía, que no tenemos la culpa de que la Junta no entiende que lo más fácil sería a emigrar hacia los Estados Unidos y seguir afectando la ya mal trecha economía con la que sustentan sus supuestos números, que no tenemos la culpa de no tener la juventud, fuerzas y condición para poder reinventarnos y aspirar mejores alternativas ya que lo trastocan todo, en definitiva no tenemos la culpa de cargar con la carga que nos quieren imponer.

Mis más sinceras gracias anticipadamente.

Honorable Judge:

For more than 34 years I have served my country with honor. I did not think twice to take a step forward when my people needed me; natural disasters, fighting drug trafficking and even putting my life in shootings among many more situations. Although in the next few months I will be fulfilling retirement age, because I am physically and mentally fit, I will continue to provide my services despite not having a secure future and with the possibility of having an old age in poverty.

On several occasions, elections were held where more than 80% vote in favor of us being included in contributing to the Federal Social Security system, but we were not listened to.

This is why I beg you, making good use of your assets, declare Law 81, known as the Dignified Retirement Law for Police Officers, a valid one to do social justice.

Buenas tardes Honorable Jueza Swain

Con mucho respeto solicito se ponga ya en vigor las Leyes 80 y 81

Soy una mujer bombero con 29 años de servicio, mi retiro seria para el 16 de septiembre de 2022 con 30 años de servicio a mi pais y 55 de edad, pero me voy con una pensión de \$667.00 mensual aproximada.

Esa sería una pensión de pobreza luego de dar mi vida para servir a mi pais, no podría terminar de pagar mi casa.

Le pido de todo corazón me permita ir con una pensión mayor para poder disfrutar mi tan merecido retiro.

Gracias.

Please don't forget us, and tried to know that we can not wait for 10 years more.

I know that you are going to have a Happy New Year, and that is our wishes for you.

Unfortunately for us the situation is different.

Expecting your consideration for all the people like me that are waiting for a fair decision about our situation.

Saludos, Honorable Juez Taylor, le escribo para pedirle que apruebe la Ley 80 para los empleados de la ley 1. Llevo 27 años trabajando para el departamento de salud y ya es hora de que nos tomen en cuenta. Somos los esclavos del siglo 21, sin ninguna esperanza de poder disfrutar de una vejez digna. Aparte de que nos vamos como indigentes luego de dejar nuestras vidas en el gobierno. Estos últimos años han sido los peores, maltratados más que nunca. Trabajando en condiciones inhumanas y sin esperanza de podernos ir. Somos muchos los que tenemos padres envejeciendo y sin tiempo para cuidarlos por que tenemos que seguir trabajando hasta viejos. Por favor tomemos en cuenta que hay gente joven que quieren trabajar. Y si no hay dinero en retiro no ha sido por nuestra decisión . Nos votaron el dinero y ahora pretenden que nos quedemos hasta morir en las áreas de trabajo como mendigos. Tome acción y debí a respetar. Gracias por la ayuda que nos pueda brindar.

CAUTION - EXTERNAL:

Honorable Judge Taylor Swain:

I am an employee of the Judicial Branch of PR with 36 years working in the government. I entered public service at 20 years of age under 447 law. Eight years ago our retirement conditions changed including the requirement to work 11 years more than agreed with 32% less benefits. The 80 Law is our unique hope to have at least a part of the retirement we agreed 36 years ago. When I entered public service the retirement was not optional, I have a lot of my money in this retirement and political leaders used our money in an irresponsible way. The rights of retired person with less years worked have been protected in the plan but we as active employees also need protection. I lost my mom with Alzheimer with no option to share with her 3 years ago. I am sick and tired and it is not fair that government doesn't let us go yet as every month they took our money for retirement purposes. Please I ask you to consider our rights and hope as active employees in the plan. We are sick and we need to go with 80 Law. I beg you to consider our needs in this plan.

Mrs. Vanessa Marrero

CAUTION - EXTERNAL:

Honorable Judge, greetings. I am writing to you because, like many Puerto Ricans, I have been the victim of unscrupulous politicians who led Puerto Rico to the economic situation it is in. I have been a police officer from the city of Guaynabo for more than 25 years and during all this period of time money has been taken from us for our retirement, which is not known where it went. With Law 3 of 2013 we were thrown public employees to live in poverty, to give you an example, when I retire I would only receive 567.00 dollars of pension. I think it is unfair that after having given the best years of our lives to the service we cannot have the retirement that we were promised due to the mismanagement of money. We were discriminated against even by the same judicial branch of the country when we disputed Law 3, which they gave way to its implementation for public employees but found it contrary to the law when they went to implement it in the judicial branch. You believe that they did not make a decision for their own benefit. I only ask you with the greatest respect that you allow the implementation of Law 80, where at least it does not provide 50% of our pension, which although it was not what we were promised when we were recruited, it gives us some relief in our retirement. I pray to God for you, to enlighten you and touch your heart. Be blessed.

CAUTION - EXTERNAL:

Dear Judge Taylor Swain: We need you to please pass Laws 80 and 81 so that we can withdraw. Many of us have already passed 30 years of service and are already tired and sick, many with disabling illnesses like me.

We also suffer from depression and panic attacks. In my personal character I have had to be sick several times because my Psychiatrist has not found me well and sends me on rest. I have also been in partial hospitalization at the Hospital Panamericano.

It is our time. We deserve our retirement now. We cannot continue dying awaiting our retirement.

I hope it helps us with all my heart so that we can all retire, state and federal, because we all pay the same withdrawal.

Sincerely,

Zaida Alvarez Flores

We were deceived by many politicians in our country, Hon Judge Laura Tailor Swain asked for her HELP.

Dear and honorable Judge Taylor Swaine I respectfully address you to request that you give validity to the 80th retirement law for public employees. I have worked for 29 years and am on my way to my 30 years of public service. With all due respect I do my job with care, but I feel exhausted and I know that many employees who have the same time as me and even more are also equally exhausted. Please humbly ask you to give us the opportunity to rest and receive our long-awaited retirement, although little. Without more words and eternally grateful.

Remains of you.

CAUTION - EXTERNAL:

Hello,

My name is Mikey Rivera, an employee of the Department of Education for 34 years. When I started working I filled out a document that said that I was retiring at the age of 55 and 30 years of service. For 2013, everything changed my life since with Law 3, they increased my age to 62 years without years of service. I already have 59, and I have a number of conditions that do not allow me to continue in Fighting feet to work. I beg you and us to allow this Law 80 to be approved and we can go with at least 50 percent. And not with the 38 percent that the nefarious Law 3 put us and where it will cover us not even to pay for the medications.

I remain from you.

God bless you in your decision making.

Good Morning: Honorable Judge Laura Taylor Swain

My name is Reinaldo Collazo. I am a public employee and I am 60 years old. Like many public employees who are sick, we have had to live the most difficult moments in the Government. Law 80 is not a spending law. On the contrary, it represents a significant saving in payroll for the government of Puerto Rico. We have been waiting a long time for justice to be done. Law 80 represents for all of us a hope of a dignified retirement and we trust that you will do everything in your power to do us justice.

We will be very grateful for your help.

Sincerely,

Reinaldo Collazo Dávila

Honorable Swain le ruego escuche nuestra solicitud para que se aplique la ley 80 , llevó trabajando 40 años 10 de ellos en la empresa privada como gerente de compras y 30 en el gobierno como supervisor auditor, los empleados de la ley 80 tenemos más años de servicio y más años cotizados que los jubilados que están gozando de un jugoso retiro de un 75% con menos años de servicio y menos años cotizados y no se vieron afectados como nosotros que le suplicamos nos haga justicia y le dé paso a nuestro anhelado retiro con un 50% , ya hemos aportado cediendo un alto % de nuestros derechos adquiridos y contractuales, que nos han violando , en que somos diferentes los jubilados y nosotros? En que ellos tienen un 75% y nosotros rogamos por un 50% cediendo un 25% y si nos aprueba nuestro retiro seríamos enviados a la indigencia en nuestra vejez con un 28% .JUSTICIA SIN IGUALDAD NO ES JUSTICIA.
